

Kids Explore!

All Natural Egg Scavenger Hunt

Find the places and critters that match the clues below on this “look but don’t collect” egg hunt. Remember, not only birds lay eggs!

- A dry place where you might find eggs
- A wet place where you might find eggs
- A dark place where you might find eggs
- A creature with no legs that lays eggs
- A creature with two legs that lays eggs
- A creature with four legs that lays eggs
- A creature with six legs that lays eggs
- A creature with eight legs that lays eggs
- Something made of sticks that protects eggs
- Something green an egg might be attached to

Possible answers: 1—under a leaf or in a nest, 2—in the water, 3—under a log or in soil, 4—a fish, slug, or snail, 5—a bird, 6—a frog or salamander, 7—an insect, 8—a spider, 9—a nest, 10—a leaf
