

Kids Explore!

Signs of Spring Scavenger Hunt

Print a list for each person in your exploring group this spring. See how long it takes for everyone to “collect” all ten signs of spring! Can you think of other signs to add?

Signs of Spring!

- A bird holding a twig:** it's nest-making time!
- A choir of frogs:** listen near water for male Pacific treefrogs singing for mates
- A puddle:** it rains so much in the spring!
- A fiddlehead:** this is what you call a new fern frond as it unrolls
- A rainbow:** sun + rain = beautiful earth art!
- A worm:** look for these on sidewalks after it rains
- A bud on a tree:** these will soon burst into leaves and/or flowers
- A cloud of bugs:** some insects hatch all at once so they can quickly find mates
- A wildflower:** look for a bloom that's not growing in a garden
- A new bird song:** migrating songbirds are returning from the south
